

Session 1:

Secondary I Review	Secondary I new vocabulary:
	factors
expression	coefficients
like terms	terms
variables	function notation
simplify	function vs relationship
equation	
equivalent	
Linear Relationships	
slope/rate of change/rise and run	
y intercept	
forms of a linear equations	
slope-intercept	
point slope	
standard	
x axis vs y axis	
Inequality	
greater than	
less than	
pattern	
model	
representation	
domain vs range
