

School Community Council Meeting (SCC) Minutes
Horizonte' Instruction and Learning Center
Salt Lake City School District
Salt Lake City, Utah 84106

September 26, 2018

Attending: David Chavez, assistant principal; Linda Roundy, teacher; Joshua Alvarez, community member

1. Mr. Chavez share the district power point describing how Salt Lake City School District filters internet/online content for protection and safety of Salt Lake City School District students. The filtering systems are iBOSS; for mobile devices Casper Focus. Parents acknowledge students will be allowed to be online during school hours as supervised by teachers. Infringement of Acceptable Use Policies by students or staff may result in loss of computer privileges.
2. Mr. Chavez will send the Internet disclosure document shared at the SCC meeting to the librarian, Emina Ceribasic to be added to policies page on website.
3. Joshua Alvarez shared the Waterford Upstart reading computer program which is available to any Youth Parent or Adult Parents in our school for children who will attend kindergarten next year. Being in a preschool does not disqualify a child. The program is adaptive and does have some ability to (collect data?) such as record levels of achievement.
4. Mr. Chavez invited Mr. Alvarez to share Waterford Upstart with the Young Parents class on or before the Halloween Bash.
5. Linda Roundy will secure a date for Mr. Alvarez to share Waterford Upstart with Adult Students during Monday seminar in October.

Mr. Joshua Alvarez contact information is: joshuaalvarez@waterford.org; 801-349-2280.
